

 BONTEXGEO	Quality Policy	QM LP-BE-5.1-001 Rev. 4 Valid from: March 2024
--	-----------------------	---

Quality Policy

Bontexgeo is a company that develops and produces products that add value to the products and / or applications of our customers. This is done by using our technologies to convert raw materials into fibers and geosynthetics.

To further expand and ensure our position in the various market segments, we must continuously improve the quality of our products and services that we offer our customers in order to continue to meet all applicable requirements.

That is why our quality policy is regularly reviewed for its applicability and effectiveness. This also ensures that its purpose, size and impact on business activities are retained.

Bontexgeo is fully committed to meeting the requirements of ISO 9001: 2015 and to guarantee the continuous improvement of quality systems at all levels & functions.

In order to comply with the ISO 9001: 2015 standard, Bontexgeo provides the possibility to draw up and retain (documented) procedures, objectives and results by:

- organize and follow up internal audits
- organize budget & management reviews on a regular basis
- organize and analyse customer satisfaction analyses on a regular basis
- organize and allow independent audits by accredited institutions and clients & for suppliers
- considering and recording relevant risks and opportunities
- mapping and effective cooperation (s) with (internal & external) stakeholders

Local quality objectives (in this case Bontexgeo NV) are determined from the site which - if possible - are in line with other sites in order to benefit in best practices.

The development, training and awareness of our staff is an important factor to understand, implement and maintain our processes, objectives and procedures.

This quality policy has been drawn up by the senior management of Bontexgeo to emphasize its commitment to the importance of a quality culture within the group and has been communicated and introduced into the organization.
